USE OF FUNDS

CONFIDENTIAL

$2M Pre-Seed — Use of Funds

Allocation of the $2,000,000 pre-seed raise across 18 months of runway. Designed to reach v1.0 GA, $500K ARR, and seed-round readiness by Q4 2026.

$2,000,000

Total Pre-Seed Raise · 18-Month Runway

$10M	20%	18 mo	Q4 2026
PRE-MONEY VAL.	INVESTOR EQUITY	TARGET RUNWAY	SEED-READY

ALLOCATION BREAKDOWN

60% Engineering & Infrastructure

$1,200,000
~$66,667/mo

Core team expansion and platform development. Scale from 2 to 6 engineers. Deliver v1.0 GA, enterprise SDK, and production infrastructure.

- 4 engineering hires (FTE, 18-month contracts)
- Infrastructure: Supabase scale, CDN, monitoring
- v1.0 GA development and enterprise features
- Developer documentation and SDK

20% GTM & Community

$400,000
~$22,222/mo

Developer community growth, DevRel, early enterprise sales motion, and market presence. Drive GitHub adoption and first paying customers.

- DevRel hire — developer advocacy and community
- Conference sponsorships (KubeCon, PyCon, etc.)
- Content marketing, technical blog, YouTube
- Enterprise sales outreach and pipeline

12% Operations & Legal

$240,000
~$13,333/mo

Company setup, IP protection, compliance, finance, and HR. Build the operational foundation for a properly structured company.

- Delaware C-Corp formation and legal fees
- IP / patent counsel for PROMETHEUS architecture
- Finance, accounting, and HR tooling
- Compliance and security certifications (SOC 2)

8% Strategic Reserve

$160,000
Emergency

Buffer for unexpected opportunities, key strategic hires, market response, or runway extension if seed round takes longer than planned.

- Strategic hire opportunity fund
- Runway buffer (±3 months extension)
- Market opportunity response (M&A, partnerships)

VISUAL ALLOCATION

Engineering $1.2M · GTM $400K · Ops & Legal $240K · Reserve $160K

MILESTONE ROADMAP

PHASE 1 · MONTHS 1-6
Foundation
- → Complete engineering hires
- → v0.2 SDK release

PHASE 2 · MONTHS 7-12
Product-Market Fit
- → v1.0 GA launch
- → 10 paying customers
- → 500+ GitHub stars

PHASE 3 · MONTHS 13-18
Seed Ready
- → $500K ARR achieved
- → 25 paying customers
- → 1,000+ GitHub stars

- Enterprise design partners (5)
- DevRel program launch
- Legal entity finalized

- SOC 2 Type I initiated
- Series A prep begins

- Seed round closed
- Enterprise sales hire
